The Lung Association – Certificate of Appreciation

The Certificate of Appreciation is awarded to persons who have provided volunteer service to the Lung Association and is given in recognition of the time, skills and energy contributed in an effort to help others. The Lung Association relies greatly on volunteers to promote, organize and implement the various educational community programs throughout the province.

We are pleased to present The Lung Association's Certificate of Appreciation to WBM Office Systems for their high quality service, professionalism and commitment to the needs of the Lung Association of Saskatchewan.

We began working with WBM in 2011 when we required network administration and monitoring services. After reviewing a number of vendors, WBM Office Systems came out ahead based on their flexibility and attentiveness to our needs as a non-profit organization. This is rooted in WBM's core values of giving back and contributing to the communities in which they do business.

Thank you to Pat and Adam for matching the information technology needs of the Lung Association with your services to create a valuable business partnership. We look forward to continuing to work with WBM Office Systems.
